# Quantitative geography of the early modern culture

Miłosz Skrodzki\*<sup>1</sup>

<sup>1</sup>Adam Mickiewicz University in Poznań – Poland

## Abstract

The presentation will assess objectively the artistic and scientific potential of various countries in the 15th to 18th century. It will list all outstanding authors on the basis of Wikipedia statistics as the most neutral data. Then it will check which areas had the most of those people, also in the temporal and disciplinary profile.

**Keywords:** civilization, culture, art, science, development
